INTRODUCTION

Gerry's Restaurant and Bar, formerly Gerry's Grill, is a group of restaurants based in the Philippines. Its first branch opened at Tomas Morato in Quezon City on February 14, 1997. Years after, four branches opened in the US. In 2010, they started to expand in Singapore and 2012 in Qatar. As of June 21, 2019, Gerry's Grill has already 117 branches locally and internationally. Company fare includes grilled seafood, pica-pica and Asian and Filipino dishes.

MOXA SOLUTION

Printing from multiple P.O.S. machine on different areas inside the restaurant is very important in the operation of Gerry's Grill. Areas like Grill, Kitchen, Bar and Office section are capable of printing receipt individually. By using Moxa Uport 1650 provide the solution with multiple USB port to cater the requirements. Moxa UPort also is capable of withstanding high temperature (up to 55 degrees) and humidity. With the Moxa solution the PC workstation software can obtain data at real time.
